

Reliable, Actionable Data for Confident Healthcare Screening with **MedEx**

Medical compliance data is crucial for safeguarding patient safety, but it's often inconsistent and duplicative—leading to overreporting, alert fatigue, and inefficiencies that burden compliance teams.

MedEx delivers clean, verifiable medical compliance data with smart alerting and unmatched reliability.

What You Can Expect

• Primary-Sourced Accuracy

100% of MedEx records come directly from verified sources, ensuring defensibility and confidence in every report.

• Flexible Packaging Options

We offer credential checks, abuse registry searches, and tiered sanctions and exclusions checks—available as one-time searches or on a continuous basis.

• Smart, Continuous Alerts

Monitoring ensures clients stay informed with the most current information—flagging only new or changed records to reduce alert fatigue and minimize noise.

• Accurate Identity Matching

Strict matching logic helps ensure the right person is being flagged—helping clients focus only on relevant risk.

• Efficient Alias Handling

Search all known name variations in a single transaction—saving time, improving accuracy, and simplifying workflows.

Why CRAs Choose MedEx

✓ Easy to Customize and Sell

With a tiered offering and the option to verify hits and monitor subjects, MedEx adapts to your clients' needs—without bloated bundles or workflow disruption.

✓ Smarter Data, Faster Decisions

Deduplicated records, verified results, and fewer false positives mean lower compliance workloads and faster decision-making.

✓ Built to Outperform

Unlike other solutions that provide partial monthly updates and limited filtering, MedEx delivers daily refreshes, cleaner data, and greater flexibility, all at a competitive price.
