

Real-Time Risk Monitoring for a Safer Workforce

Employee risk isn't static. Traditional point-in-time background checks leave critical visibility gaps that can lead to liability, financial loss, and reputational harm.

Risk Monitoring delivers real-time insight to spot and address employee risk before it escalates.

What You Can Expect

- **Comprehensive Coverage**

Get always-on visibility into new activity related to arrests, warrants, criminal activity, traffic violations, and sex offender registry matches, so nothing slips through the cracks.

- **Flexible Tiers**

Choose Criminal Monitoring, Driver Monitoring, or a combined package—then fine-tune further based on role, risk profile, or business needs to surface only the insights that drive action.

- **Quantified Risk**

Leverage our Risk Clarity feature, which translates post-hire convictions into data-driven, configurable scores—at both the individual employee and roster level—making it easier to benchmark exposure and spot emerging risk patterns.

- **Live Alerts**

Receive instant email notifications the moment new activity is detected—no lag, no blind spots—so you're never caught off guard.

A Smarter Approach to Risk

- ✓ **Holistic Behavior Insight**

Shift from reactive to proactive with a continuous, comprehensive view of employee behavior—keeping you informed, alert, and one step ahead.

- ✓ **Actionable Analytics**

View risk trends and insights by department, location, job group, etc. to pinpoint risk and strengthen your workforce safety strategy.

- ✓ **Clarity That Drives Action**

Monitoring with Risk Scoring goes a step further—providing clarity on severity and context, guiding more confident action.
