

Power Safer and More Confident Decisions with **Sex Offender Registry+**

Sex offender registry searches play a critical role in workplace safety, especially in high-risk industries. Yet, many solutions lack the accuracy and reliability needed to support confident, compliant decisions.

SOR+ delivers fast, precise results that reduce risk and enable safer decisions where it matters most.

fewer false positives

What You Can Expect

- **Broader, Deeper Coverage**

Access 600,000+ records from 4,000+ agencies—including level 1 offender records, often missed by traditional tools.

- **Direct State-Level Access**

Real-time scraping and proprietary API connections with state registries ensures maximum uptime.

- **Near-Instant Results**

In 33 API-connected states, SOR+ returns results in seconds—cutting delays and improving screening speed where it counts.

- **Enhanced PII Matching**

Full DOB and SSN logic reduce false positives by up to 89%, minimizing manual reviews and improving accuracy.

- **Automation at Scale**

SOR+ reduces turnaround time by 81.7% and manual intervention by 53%, optimizing high-volume workflows.

- ✓ **Trusted in High-Risk Markets**

SOR+ is ideal for clients in regulated sectors or those serving vulnerable populations. It delivers the accuracy, coverage, and reliability needed to support safer hiring where it matters most.

- ✓ **More Than Speed and Accuracy**

SOR+ reduces manual work, lowers risk, and improves safety outcomes—helping CRAs go beyond the “fast and compliant” promise to deliver true operational impact.

- ✓ **Differentiate Where It Counts**

SOR+ gives CRAs a premium offering that elevates screening services, boosts client trust, and sets your business apart as a leader in risk intelligence.
